Experience

“I felt a lot of emotions the day of my surgery. I was excited and anxious, but I had a lot of confidence in my doctor and the staff at the Austin-Weston Center. I always felt special, as though I were a friend or a member of their family. They took great care of me before, during and after my surgery and I was very happy to receive a phone call from my doctor the first night as I recovered at home.

I felt little pain with the facial surgery. I knew I probably looked awful, but I really felt great. I followed all the instructions and took the medications that were prescribed. All in all, it was an easy experience for me. As I look back as to all the reasons why I waited to have surgery, I just wish I would have done it sooner.”
