3. Impact

Experience

“Even though I felt

that the Doctor answered all of my questions during the consultation appointment, I was still a little nervous on the day of surgery but I trusted that things would go smoothly because they prepared me as to what to expect. When I arrived for my pre-op appointment before surgery, the staff took wonderful care of me as well as the doctor. They were extremely professional and very supportive. I was so well taken care of that when they tucked me in with warm blankets, I barely felt the IV sedation and before I knew it I was waking up into the peaceful state.

During my recovery, I made sure to rest and to allow myself to take it easy and indulge myself in the luxury. My best piece of advice for someone who is interested in having a surgery done is to be very patient and day by day you will see better results.”
