## Impact

*"* I am so delighted with my results and my thoughts about myself have never been more confident. I like what I see in the mirror! I no longer have a conversation with myself about "this or that" not being right about my face. I now accept and love myself more. I am so pleased with my results and the fact that my friends and family constantly compliment me on how they think I look refreshed and youthful.

Every morning when I get ready I feel that I look presentable and I feel so polished and professional. I always feel great walking out the door. I am very grateful to have had my surgery so that I can communicate my own personal experience about what cosmetic surgery has done for me."
