## Impact

“ I am so happy that I have had my surgery! I feel very empowered...I made a decision to change, followed through with it and I am reaping the benefits everyday! I have a new found confidence in my professional and personal lives.

My personal life has always been wonderful, but since my surgery, I feel so good about my appearance. My husband will often say, "You're so beautiful!" Casual acquaintances will compliment me on my youthful appearance and zest for life.

I am a nurse and my appearance is important in the field I work in. My family and friends are very impressed with my results. Both my son and husband enjoy going out with me and say they are so proud to be seen with me. I feel that my doctor's skill and his staff's wonderful care enabled me to have a wonderful cosmetic surgery experience
